

University of Illinois Springfield
Student Government Association Resolution 019
Improving the Health & Insurance Policy of International students
Resolution Sponsors: Senator Camara

WHEREAS, the University of Illinois Springfield (UIS) Student Government Association (SGA) is vested with the authority to be the voice for the student body; and,

WHEREAS, all new international students are required to take their immunizations at the health services center before the start of classes; and,

WHEREAS, also as part of their bills, they are to pay for student health insurance at the Human Resource office; and,

WHEREAS, now, as paying for immunization bill while they already have paid for their insurance does not really add up, when the students reported this issue to the human resource office, they were given a form to fill and asked to collect their receipt from the health service center and send both documents by post to the insurance company.

WHEREAS, after 3 months of waiting to hear from the insurance company, some students reached out and were told that the UIS health service is not part of the insurance.

THEREFORE, BE IT RESOLVED, SGA to work with the Human Resource center to come up with a solution to integrate all related health fees/bills into the insurance policy or make the whole process seamless in a way that UIS would be medium between the students and the insurance company instead of vice versa.

Secretary E. Hartney

President A. Mehmet
